**COMPLIANCE WITH NIH AND OTHER RESEARCH FUNDING AGENCY
ACCESSIBILITY REQUIREMENTS**

A number of research funding agencies now require or request authors to submit the post-print (the article after peer review and acceptance but not the final published article) to a repository that is accessible online by all without charge. Within medical research, three funding agencies in particular have announced such policies:

- The U.S. National Institutes of Health (NIH) requires authors to deposit post-prints based on NIH-funded research in its repository PubMed Central (PMC) within twelve months after publication of the final article in the journal.
- The Howard Hughes Medical Institute (HHMI) requires as a condition of research grants, deposit in PMC, but in its case within six months after publication of the final article.
- The Wellcome Trust requires, as a condition of research grants, deposit in UK PubMed Central within six months after publication of the final article.

As a service to our authors, LWW will identify to National Library of Medicine (NLM) articles that require deposit. This Copyright Transfer Agreement provides the mechanism for identifying such articles. LWW will transmit the post-print of an article based on research funded in whole or in part by one or more of these three agencies to Pub Med Central.

Upon NIH request, it remains the legal responsibility of the author(s) to confirm with NIH the provenance of their manuscript for purposes of deposit.

Author(s) will not deposit their articles themselves.

Author(s) will not alter the post-print already transmitted to NIH.

Author(s) will not authorize the display of the post-print prior to:

- (a) 12 months following publication of the final article, in the case of NIH,
- (b) 6 months following publication of the final article, in the case of Wellcome Trust and HHMI
